

esplora®

Levitating Panel

You will need:

- Tinsel
- PVC
- Cloth
- Scissors

Step 1: Grab four strings of tinsel and tie a knot on each end

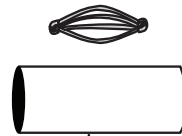

Step 2: Cut off the extra tinsel from the sides.

Step 3: Use a cloth to charge the pipe by rubbing it up and down against it.

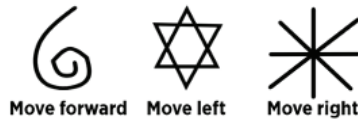

Step 4: Finally put the tinsel on the PVC pipe and watch it float.

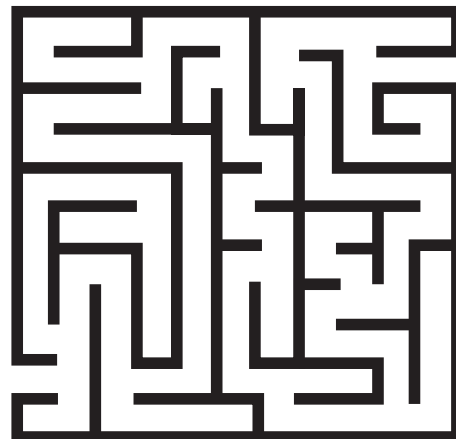

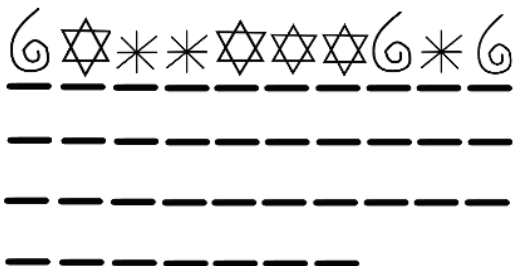

Coding Santa

It's Christmas again! Everyone's over the moon, but there is only one problem... it's a very foggy Christmas eve and not even Rudolph's nose could light up this dark sky. Santa needs to navigate blindly. "But how can he do that?" you may ask. By coding of course! You are Santa's little coder so your job is to tell Santa what to do by giving him instructions using these codes:

Santa's elf had already started writing down some of the code but he couldn't complete it. Can you help him finish the code and save Christmas?

Lava Christmas Balls

You will need:

- Cooking Oil
- Water
- Bulb shaped jar (you can find at any local arts and craft store)
- Food colouring
- Alka seltzer Tablets
- Spoon
- Glue Gun
- String

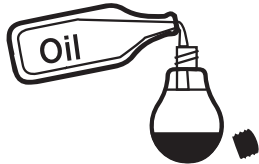

Step 1: Fill the Jar 1/3 with water.

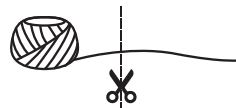

Step 2: Add a few drops of food colouring.

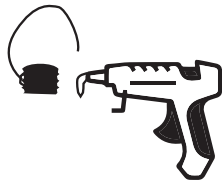

Step 3: Fill the rest of the jar with cooking oil.

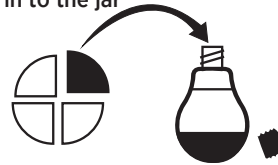

Step 4: Cut the string to a length of 6cm.

Step 5: Use the glue gun to attach the string to the lid of the jar.

Step 6: Break a tablet of Alka seltzer into 4 pieces and place 1 in to the jar

Step 7: Hang your lava lamp on your Christmas tree and enjoy the show.
