

Life in Space

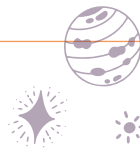

When astronauts need to be in space for a while, they travel to a massive spacecraft called **The International Space Station (ISS)**, which is travelling around the Earth at almost 28,000 km/hr. The ISS houses astronauts from all over the world and can host around 10 persons for months at a time. Besides being their home away from home, it is also a unique laboratory where all kinds of experiments can be carried out which would not be possible back on Earth.

DISCUSSION:

Would you like to go to space? Why?

WRITING TASK:

Imagine you are an astronaut keeping a diary of your experience on the ISS. Use the questions below to guide you and give you ideas to write your own diary entry during a typical day in space.

WHY DID YOU GO TO SPACE?

WHAT DO YOU EAT?

Life in Space

WHAT DO YOU DO IN YOUR FREE TIME?

WHAT WOULD YOU LIKE TO SEE?

WHERE DO YOU SLEEP?

WHAT DO YOU DO TO EXERCISE?
