## MULTI-SENSORY ROOM – GUIDE

At Esplora, the health and safety of all visitors is a top priority. To ensure the safety and wellbeing of each individual, we have established the following sensory-space guide.

### ADULT RESPONSIBILITIES

Parents or accompanying adults must supervise the user at all times (unless agreed otherwise with the Malta Trust Foundation personnel), help keep the space calm and clean, and ensure that a maximum of two users may use the room at any one time.

### FOOD AND DRINK

No food or drinks (except closed water bottles) are allowed in the multi-sensory room unless medically necessary, helping us keep the space clean and safe for those with allergies.

### CLOTHING AND PERSONAL ITEMS

Please wear comfortable clothing and leave all shoes outside on the shoe rack before entering the multi-sensory room.

### DAMAGE TO EQUIPMENT

Our equipment is safe and durable; please use it appropriately and report any damaged equipment to staff
