## Role

The Executive (Data & Systems) will be responsible for administering and maintaining Esplora's internal digital systems, coordinating with the IT department, overseeing data collection and reporting, and ensuring the seamless operation of online platforms. This role involves administering Esplora's event and booking systems, supporting digital engagement tools, and ensuring data-driven decision-making through structured data gathering and analysis. The successful candidate will play a crucial role in optimizing digital workflows, improving visitor experiences, and facilitating smooth operations across departments.

## Duties

### 1. Systems & Platform Administration

- Manage Esplora's online platforms, including the event booking system, Learning Management System (LMS), visitor management tools, and digital engagement portals;
- Ensure all digital content, such as events, schedules, and announcements, is correctly published and updated;
- Coordinate user access, permissions, and system configurations for internal platforms;
- Liaise with the IT department to ensure digital systems are operational, secure, and updated;
- Troubleshoot and escalate technical issues to IT when required.

### 2. Data Management & Reporting

- Oversee the collection, management, and analysis of visitor, event, and operational data;
- Generate reports and insights to support strategic decision-making;
- Implement visitor heatmaps and other data visualization tools;
- Ensure compliance with GDPR and data protection regulations.

### 3. Event & Booking System Management

- Maintain and update event listings, schedules, and registrations on the online portal;
- Coordinate with the Visitor Experience and Outreach teams to ensure smooth digital event setup.

### 4. Digital Coordination & IT Liaison

- Act as the primary point of contact between Esplora and the IT department for system-related matters;
- Propose and implement system improvements to optimize operations;
- Provide basic training for staff on digital systems and tools.

#### 5. Process Optimization & Automation

- Identify inefficiencies in digital workflows and propose automation solutions;
- Support the integration of new technologies to enhance operational efficiency;
- Assist in the implementation of new digital tools that align with Esplora's strategic objectives.

#### 6. Compliance & Documentation

- Maintain accurate records of system usage, access, and procedures;
- Ensure all online platforms comply with Esplora's policies and data protection laws;
- Develop and update standard operating procedures (SOPs) for system administration.

To perform other job-related duties as assigned. The list is not exhaustive, and management may change or Add tasks if and when required and according to the exigencies of Xjenza Malta and its subsidiaries.
